What are the Fund's goals?

The Fund is a money market mutual fund whose investment objective is to secure as high a level of current income as is consistent with maintaining liquidity and preserving capital. The Fund attempts to maintain a stable net asset value of \$1.00 per share. Although the Fund will strive to achieve these goals, there is no assurance that it will succeed. The Fund's investment adviser is EULAV Asset Management, LLC (the "Adviser" or "EULAV"), a wholly-owned subsidiary of Value Line, Inc. ("Value Line").

What are the Fund's main investment strategies?

To achieve the Fund's goals, the Adviser invests in high quality, short-term U.S. dollar denominated money market instruments. The Fund does not invest for the purpose of seeking capital appreciation or gains and is managed to provide a stable net asset value of \$1.00 per share. The Fund's average maturity of its holdings will not exceed 90 days and its yield will fluctuate with changes in short-term interest rates. Income on short-term securities tends to be lower than income on longer term debt securities, so the Fund's yield will likely be lower than the yield on longer term fixed income funds.

What are the main risks of investing in the Fund?

Investing in any mutual fund involves risk. The chief risk that you assume when investing in the Fund is interest rate risk, the possibility that as interest rates rise the value of some fixed income securities may decrease. There is also the risk that any of the Fund's holdings could have its credit rating downgraded, or the issuer could default, or that there could be a sharp rise in interest rates, causing the value of the Fund's securities to fall.

An investment in the Fund is not a complete investment program and you should consider it just one part of your total investment program.

An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the Fund.

How has the Fund performed?

This bar chart and table can help you evaluate the potential risks of investing in the Fund. The bar chart below shows how returns for the Fund's shares have varied over the past ten calendar years, and the table below shows the average annual total returns of these shares for one, five, and ten years. These returns are compared to the performance of the Lipper Money Market Funds Average. The Fund's past performance is not necessarily an indication of how it will perform in the future.

Total Returns as of 12/31 each year (%)

Best Quarter: Q4 2000 1.50%

Worst Quarter: Q1 2004 0.04%

Average Annual Total Returns for Periods Ending December 31, 2008

	1 year	5 years	10 years
Value Line Cash Fund	1.69%	2.64%	2.85%
Lipper Money Market Funds Average	2.04%	2.72%	2.89%

The Fund's 7-day yield as of December 31, 2008 was 0.14%. The current 7-day yield may be obtained from the Fund by calling 800-243-2729.

What are the Fund's fees and expenses?

These tables describe the fees and expenses you pay in connection with an investment in the Fund.

Shareholder Fees (fees paid directly from your investment)

Maximum Sales Charges (Load) Imposed On Purchases as a percentage of offering price	None
Maximum Deferred Sales Charges (Load) as a Percentage of original purchase price or redemption price, whichever is lower	None
Maximum Sales Charges (Load) Imposed On Reinvested Dividends	None
Redemption Fee	None
Exchange Fee	None

Annual Fund Operating Expenses (expenses that are deducted from the Fund's assets)

Management Fees*	0.40%
Distribution and Service (12b-1) Fees*	0.25%
Other Expenses	0.22%
Total Annual Fund Operating Expenses	0.87%
Less: 12b-1 fee waiver*	-0.25%
Net Expenses*	0.62%

* The Adviser may from time to time voluntarily waive all or a portion of its advisory fee from the Fund. See "Who Manages the Fund, Management fees" on page 10. Value Line Securities, Inc. (the "Distributor") has contractually agreed to waive the Fund's 12b-1 fee in an amount equal to 0.25% of the Fund's average daily net assets through April 30, 2010. There can be no assurance that the Distributor will extend the contractual 12b-1 fee waiver beyond such date. The Fund's total return and yield would be lower in the absence of such waiver.

Example

This example is intended to help you compare the cost of investing in the Fund to the cost of investing in other mutual funds. The chart below shows the cumulative amount of Fund expenses on a hypothetical investment of \$10,000 with an annual 5% return over the time shown, assuming that (a) the Fund's total operating expenses remain the same and (b) the Distributor's contractual 12b-1 fee waiver is in effect for year one. The expenses indicated for each period would be the same whether you sold your shares at the end of each period or continued to hold them. This is an example only, and your actual costs may be greater or less than those shown here. Based on these assumptions, your costs would be:

	1 year	3 years	5 years	10 years
Value Line Cash Fund	\$64	\$253	\$458	\$1,049

Investment objective

The Fund is a money market mutual fund whose investment objective is to secure as high a level of current income as is consistent with maintaining liquidity and preserving capital. The Fund attempts to maintain a stable net asset value of \$1.00 per share.

Principal investment strategies

To reach its objective of seeking as high a level of current income as is consistent with preservation of capital and liquidity, the Fund invests in short-term money market securities meeting quality standards for money market funds under the Investment Company Act of 1940.

The type of securities in which we invest

The Fund invests only in high quality, short-term U.S. dollar denominated money market instruments. The Fund does not invest for the purpose of seeking capital appreciation or gains and is managed to provide a stable net asset value of \$1.00 per share. To minimize the effect of changing interest rates on the net asset value of its shares, the Fund keeps the average maturity of its holdings to 90 days or less to reduce interest rate risks. The Fund invests at least 95% of its total assets in prime money market instruments, that is securities of issuers with one of the two highest credit ratings assigned by at least two established national rating organizations or by one rating organization if the security is rated by only one or, if unrated, the equivalent rating established by the Adviser. No more than 5% of the Fund's assets can be invested in securities rated (by a national rating organization or by the Adviser) in the second highest short-term category. The following is a brief description of the types of short-term instruments in which the Fund may invest:

U.S. Government Securities: includes U.S. Treasury bills, notes and bonds, which are direct obligations of the U.S. Treasury supported by the full faith and credit of the United States, as well as securities issued by agencies, instrumentalities or sponsored entities of the U.S. Government supported by (i) the full faith and credit of the U.S. Government, (ii) the right of the issuer to borrow from the U.S. Treasury, (iii) the discretionary authority of the U.S. Government to purchase certain obligations of the issuer, or (iv) only by the credit of the issuer. U.S.

Government securities also include certain debt securities of eligible issuers guaranteed by the Federal Deposit Insurance Corporation under its Temporary Liquidity Guarantee Program.

Bank Instruments: includes certificates of deposit and bankers' acceptances.

Commercial Paper: refers to short-term unsecured promissory notes issued by corporations.

Asset Backed Securities: refers to securities backed by an underlying pool of assets such as credit card or automobile trade receivables or corporate loans or bonds which back these securities and that provide the interest and principal payments to investors.

Corporate Obligations: includes other short-term corporate debt obligations.

Repurchase Agreements: refers to contracts to repurchase securities at a fixed price within a specified period of time, usually less than one week.

Municipal Securities: refers to debt securities issued by or on behalf of states, territories and possessions of the United States and their political subdivisions.

U.S. Department of the Treasury's Temporary Guarantee Program

The Fund participates in the U.S. Department of the Treasury's Temporary Guarantee Program for Money Market Funds (the "Program").

The Program protects the shares of any shareholder of record in the Fund on September 19, 2008 ("Covered Shareholder"); it does not protect investors who were not Shareholders of record in the Fund on that date. The Number of shares protected is the lesser of the number of shares owned by a Covered Shareholder on September 19, 2008 and the number of shares owned when a guarantee event occurs. A guarantee event generally would occur if the Fund's market-based net asset value per share were less than \$0.995. A Covered Shareholder will receive \$1.00 per protected share upon liquidation of the Fund (subject to adjustment and the overall limit of \$50 billion available to all money market funds participating in the Program).

The Program was originally set to expire on December 18, 2008. In December 2008, the Treasury further extended the Program through April 30, 2009 and in

April 2009 the Treasury extended the Program through September 18, 2009. Participation in the Program as extended required the Fund to pay the Treasury fees of .01%, 0.015% and 0.015%, respectively, of the Fund's net asset value as of September 19, 2008.

The principal risks of investing in the Fund

The chief risk that you assume when investing in the Fund is interest rate risk, the possibility that as interest rates rise the value of some fixed income securities may decrease. Other risks that you assume when investing in the Fund are market risk, credit risk and income risk. Market risk is the risk that the securities in a certain market will decline in value because of factors such as economic conditions. Credit risk is the risk that any of the Fund's holdings will have its credit rating downgraded or will default, thereby reducing the Fund's income level and share price. Income risk is the risk that the Fund's income may decline because of falling interest rates and other market conditions.

An investment in the Fund is not a complete investment program and you should consider it just one part of your total investment program.

An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the Fund.

Information on the Fund's recent portfolio holdings can be found in the Fund's current annual, semi-annual or quarterly reports. A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is also available in the Statement of Additional Information.

The business and affairs of the Fund are managed by the Fund's officers under the oversight of the Fund's Board of Directors.

Investment Adviser

On June 30, 2008, Value Line, the Fund's former investment adviser, reorganized its investment management division into EULAV Asset Management, LLC, a newly formed wholly-owned subsidiary located at 220 East 42nd Street, New York, NY 10017. As part of the reorganization, the Fund's investment advisory agreement was transferred from Value Line to EULAV and EULAV replaced Value Line as the Fund's investment adviser. The reorganization resulted in no other change to the terms of the investment advisory agreement, including the advisory fee rate. EULAV also acts as investment adviser to the other Value Line mutual funds and furnishes investment counseling services to private and institutional clients, resulting in combined assets under management of approximately \$2.5 billion as of March 31, 2009.

Value Line was organized in 1982 and is the successor to substantially all of the operations of Arnold Bernhard & Co., Inc., which with its predecessor has been in business since 1931. Value Line Securities, Inc., the Fund's distributor (the "Distributor"), is a subsidiary of Value Line. Another subsidiary publishes The Value Line Investment Survey and other publications.

By letter dated June 15, 2005, the staff of the Northeast Regional Office of the Securities and Exchange Commission ("SEC") informed Value Line that it was conducting an investigation in the matter of the Distributor. Value Line has supplied numerous documents to the SEC in response to its requests and various individuals, including employees and former employees of Value Line, Directors of the Fund and others, have provided testimony to the SEC. On May 8, 2008, the SEC issued a formal order of private investigation regarding whether the Distributor's brokerage charges and related expense reimbursements from the Value Line Funds ("Funds") during periods prior to 2005 were excessive and whether adequate disclosure was made to the SEC and the Boards of Directors and shareholders of the Funds. Thereafter, certain officers of Value Line, who are former officers of the Funds, asserted their constitutional privilege not to provide testimony. Value Line has informed the Funds that it believes the SEC has completed the fact finding phase of its investigation and Value Line will seek to settle this matter with the SEC. Although management of Value Line cannot

determine the effect that the investigation will have on Value Line's financial statements, it believes that any settlement is likely to be material to it and has informed the Funds of its belief, in light of settlement discussions to date, that there are no loss contingencies that should be accrued or disclosed in the Fund's financial statements and that the resolution of this matter is not likely to have a materially adverse effect on the ability of the Adviser or the Distributor to perform their respective contracts with the Fund.

Management fees

For managing the Fund and its investments, the Adviser is paid a fee at an annual rate of 0.40% of the Fund's average daily net assets.

A discussion regarding the basis for the Fund's Board of Directors' approval of the investment advisory agreement is available in the Fund's most recent semi-annual report to shareholders for the six month period ended June 30.

The Adviser may from time to time voluntarily agree to waive all or a portion of its advisory fee for the Fund. Any such waiver may be discontinued or modified by the Adviser at any time. The amount of any waived fees is subject to recoupment by the Adviser from the Fund within the same calendar year in which the fees were waived and the three subsequent calendar years, provided that no amount may be recouped that would cause the Fund's total expense ratio as a result of such recoupment to exceed 0.90%. In no event shall the recoupment exceed 0.10% (annualized) of the Fund's average daily net assets on any day. The Fund's total return and yield would be lower in the absence of any such waiver and the waiver by the Distributor of its Rule 12b-1 fee.

How to buy shares

■ **By wire**

If you are making an initial purchase by wire, you must call the Fund's transfer agent at 800-243-2729 so you can be assigned an account number. Request your U.S. bank with whom you have an account to wire the amount you want to invest to State Street Bank and Trust Company, ABA #011000028, attention DDA # 99049868. Include your name, account number, tax identification number and the name of the fund in which you want to invest.

■ **Through a broker-dealer**

You can open an account and buy shares through a broker-dealer, who may charge a fee for this service.

■ **By mail**

Complete the account application and mail it with your check payable to BFDS, Agent, to Value Line Funds, c/o Boston Financial Data Services, Inc., P.O. Box 219729, Kansas City, MO 64121-9729. If you are making an initial purchase by mail, you must include a completed account application or an appropriate retirement plan application if you are opening a retirement account, with your check. Cash, money orders, traveler's checks, cashier's checks, bank drafts or third-party checks will not be accepted for either the initial or any subsequent purchase. All purchases must be made in U. S. dollars and checks must be drawn on U.S. banks.

■ **Minimum/additional investments**

Once you have completed an account application, you can open an account with an initial investment of \$1,000, and make additional investments at any time for as little as \$100. The Fund reserves the right to reject any purchase order and to reduce or waive the minimum purchase requirements at any time.

■ **Time of purchase**

Your price for Fund shares is the Fund's net asset value per share (NAV) which is generally calculated as of the close of regular trading on the New York Stock Exchange (the "Exchange") (generally 4:00 p.m., Eastern time) every day the Exchange is open for business. The Exchange is currently closed on weekends, New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day and on the preceding Friday or subsequent Monday if any of those days falls on a Saturday or Sunday, respectively. Your order will be priced at the next NAV calculated after your order is received in correct

form by BFDS as agent for the Fund. The NAV will normally remain fixed at \$1.00 per share. Newly-purchased shares will begin to accrue dividends on the business day after the Fund receives Federal Funds from your purchase payment. A payment by check is normally converted to Federal Funds within one business day following receipt by the Fund. A business day is any day that the Exchange is open for business. The Fund reserves the right to reject any purchase order and to waive the initial and subsequent investment minimums at any time.

Fund shares may be purchased through various third-party intermediaries authorized by the Fund including banks, brokers, financial advisers and financial supermarkets who may charge a fee. When the intermediary is authorized by the Fund, orders will be priced at the NAV next computed after receipt of the order by the intermediary.

■ **Distribution plan**

The Fund has adopted a plan of distribution under rule 12b-1 of the Investment Company Act of 1940. Under the plan, the Fund is charged a fee at the annual rate of 0.25% of the Fund's average daily net assets with the proceeds used to finance the activities of the Distributor. The plan provides that the Distributor may make payments to securities dealers, banks, financial institutions and other organizations which provide distribution, marketing and administrative services with respect to the distribution of the Fund's shares. Such services may include, among other things, answering investor inquiries regarding the Fund; processing new shareholder account applications and redemption transactions; responding to shareholder inquiries; and such other services as the Fund may request to the extent permitted by applicable statute, rule or regulation. The plan also provides that the Adviser may make such payments out of its advisory fee, its past profits or any other source available to it. The fees payable to the Distributor under the plan are payable without regard to actual expenses incurred, which means that the Distributor may earn a profit under the plan. For the period May 1, 2008 through April 30, 2009, the Distributor contractually agreed to waive the Fund's Rule 12b-1 fee. The Distributor has agreed to extend this contractual 12b-1 fee waiver through April 30, 2010. There can be no assurance that the Distributor will extend the contractual fee waiver beyond such date. Because Rule 12b-1 fees are paid out of the Fund's assets on an ongoing basis, over time these fees will increase the cost of your investment and may cost you more than if you paid other types of sales charges.

■ **Additional dealer compensation**

The Adviser, the Distributor and/or their affiliates may pay additional compensation out of their assets (which generally come directly or indirectly from the Fund and other Value Line mutual funds) to certain brokerage firms and other intermediaries or their affiliates, based on Fund asset held by that firm, or such other criteria agreed to by the Adviser, the Distributor or their affiliates. The Adviser, the Distributor or their affiliates determine the firms to which payments may be made. Such payments may be significant.

Brokerage firms and other intermediaries that sell Fund shares may make decisions about which investment options they will service and make available to their clients based on the payments these entities may be eligible to receive for their services. Therefore, payments to a brokerage firm or other intermediary may create potential conflicts of interest between that entity and its clients where that entity determines which investment options it will make available to those clients.

■ **Net asset value**

The Fund's NAV is determined as of the close of regular trading on the Exchange each day the Exchange is open for business. NAV is calculated by adding the market value of all the securities and assets in the Fund's portfolio, deducting all liabilities, and dividing the resulting number by the number of shares outstanding. The result is the NAV per share. The securities held by the Fund are valued on the basis of amortized cost which does not take into account unrealized capital gains or losses. This involves valuing an instrument at cost and thereafter assuming a constant amortization to maturity of any discount or premium, regardless of the impact of fluctuating interest rates on the market value of the instrument. It is the policy of the Fund to attempt to maintain a NAV of \$1.00 per share.

■ **Important information about opening a new account with the Value Line Funds**

In furtherance of the national effort to stop the funding of terrorism and to curtail money laundering, the USA Patriot Act and other Federal regulations require financial institutions, including mutual funds, to adopt certain policies and programs to prevent money laundering activities, including procedures to verify the identity of all investors opening new accounts. Accordingly, when completing the Fund's account application, you will be required to supply the Fund with certain information for all persons owning or permitted to act on an

account. This information includes name, date of birth, taxpayer identification number and street address. Also, as required by law, the Fund employs various procedures, such as comparing the information you provide against fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct. Until such verification is made, the Fund may temporarily limit any share purchases or close your account if it is unable to verify your identity.

How to sell shares

■ **By mail**

You can redeem your shares (sell them back to the Fund) at NAV by mail by writing to: Value Line Funds, c/o Boston Financial Data Services, Inc., P.O. Box 219729, Kansas City, MO 64121-9729. The request must be signed by all owners of the account, and you must include a signature guarantee using the medallion imprint for each owner. Signature guarantees are also required when redemption proceeds are going to anyone other than the account holder(s) of record. If you hold your shares in certificates, you must submit the certificates properly endorsed with signature guaranteed with your request to sell the shares. A signature guarantee can be obtained from most banks or securities dealers, but not from a notary public. A signature guarantee helps protect against fraud.

The Fund will pay you promptly, normally the next business day, but no later than seven days after your request to sell your shares is received. If you purchased your shares by check, the Fund will wait until your check has cleared, which can take up to 15 days from the day of purchase, before the proceeds are sent to you.

If your account is held in the name of a corporation, as a fiduciary or agent, or as surviving joint owner, you may be required to provide additional documents with your redemption request.

■ **By telephone or wire**

You can sell \$1,000 or more of your shares by telephone or wire, with the proceeds sent to your bank the next business day after we receive your request.

■ **By check**

You can sell \$500 or more of your shares by writing a check payable to the order of any person.

■ Through a broker-dealer

Fund shares may be sold through various third-party intermediaries including banks, brokers, financial advisers and financial supermarkets, who may charge a fee for this service.

When the intermediary is authorized by the Fund, the shares that you buy or sell through the intermediary are priced at the next NAV that is computed after receipt of your order by the intermediary.

Among the brokers that have been authorized by the Fund are Charles Schwab & Co., Inc., TD Ameritrade Inc., Pershing LLC and Fidelity Brokerage Services LLC (National Financial Services LLC.) You should consult with your broker to determine if it has been so authorized.

■ By exchange

You can exchange all or part of your investment in the Fund for shares in other Value Line funds. When you exchange shares, you are purchasing shares in another fund so you should be sure to get a copy of that fund's prospectus and read it carefully before buying shares through an exchange. To execute an exchange, call 800-243-2729. The Fund reserves the right to reject any exchange order.

When you send the Fund's transfer agent a properly completed request to sell or exchange shares, you will receive the NAV that is next determined after your request is received by the Fund. For each account involved you should provide the account name, number, name of Fund and exchange or redemption amount. Call 1-800-243-2729 for information on additional documentation that may be required. You may have to pay taxes on the gain from your sale or exchange of shares (if any).

Exchanges among Value Line funds are a shareholder privilege and not a right. The Fund may temporarily or permanently terminate the exchange privileges of any investor that, in the opinion of the Fund, uses market timing strategies or who makes more than four exchanges out of the Fund during a calendar year.

This exchange limitation does not apply to systematic purchases and redemptions, including certain automated or pre-established exchange, asset allocation or dollar cost averaging programs. These exchange limits are subject to the Fund's ability to monitor exchange activity. Shareholders seeking to engage in excessive trading practices may deploy a variety of strategies to avoid

detection, and, despite the best efforts of the Fund to prevent excessive trading, there is no guarantee that the Fund or its agents will be able to identify such shareholders or curtail their trading practices. The Fund receives purchase and redemption orders through financial intermediaries and cannot always know or reasonably detect excessive trading which may be facilitated by these intermediaries or by the use of omnibus account arrangements offered by these intermediaries to investors.

■ **Account minimum**

If as a result of redemptions your account balance falls below \$500, the Fund may ask you to increase your balance within 30 days. If your account is not at the minimum by the required time, the Fund may redeem your account, after first notifying you in writing.

Frequent purchases and redemptions of Fund shares

Frequent purchases and redemptions of the Fund's shares entail risks, including the dilution in value of the Fund shares held by long-term shareholders, interference with the efficient management of the Fund's portfolio, and increased brokerage and administrative costs. Because the Fund does not accommodate frequent purchases and redemptions of Fund shares, the Fund's Board of Directors has adopted policies and procedures to prohibit investors from engaging in late trading and to discourage excessive and short-term trading practices that may disrupt portfolio management strategies and harm Fund performance.

Although there is no generally applied standard in the marketplace as to what level of trading activity is excessive, the Fund considers trading in its shares to be excessive if an investor:

- sells shares within 30 days after the shares were purchased;
- makes more than four exchanges out of the Fund during a calendar year (other than systematic purchases and redemptions); or
- enters into a series of transactions that is indicative of a timing pattern strategy.

Money market funds are generally used by investors for short-term investments, often in place of bank checking or savings accounts or for cash management purposes. As a result, the Fund's purchase and redemption activity will differ from non-money market fund activity. The Fund will take into account such differences between money market fund and non-money market fund activity when determining if excessive trading activity and potential market timing activity has occurred.

In order to seek to detect frequent purchases and redemptions of Fund shares, the Distributor monitors selected trades that have been identified by the Fund's transfer agent. If the Distributor determines that an investor or a client of a broker has engaged in excessive short-term trading that may be harmful to the Fund, the Distributor will ask the investor or broker to cease such activity and may refuse to process purchase orders (including purchases by exchange) of such investor, broker or accounts that the Distributor believes are under their control.

While the Distributor uses its reasonable efforts to detect excessive trading activity, there can be no assurance that its efforts will be successful or that market timers will not employ tactics designed to evade detection. Neither the Adviser, the Distributor, the Fund, nor any of the Fund's service providers may enter into arrangements intended to facilitate frequent purchases and redemptions of Fund shares. Frequently, shares are held through omnibus accounts maintained by financial intermediaries such as brokers and retirement plan administrators, where the holdings of multiple shareholders, such as all the clients of a particular broker, are aggregated. The ability to monitor trading practices by investors purchasing shares through omnibus accounts is dependent upon the cooperation of the financial intermediary in observing the Fund's policies. Consequently, it may be more difficult for the Fund to detect market timing activity through such accounts. However, the Fund, through its agent, has entered into an information sharing agreement with each financial intermediary, which provides, among other things, that the financial intermediary shall provide, promptly upon the Fund's request, certain identifying and transaction information regarding its underlying shareholders. Should the Fund detect market timing activity it may terminate the account or prohibit future purchases or exchanges by an underlying shareholder. Because omnibus accounts may apply their own market timing policies with respect to their accounts, and because the Distributor retains discretion in applying market timing policies, there is a risk that different shareholders may be treated differently and some level of market timing activity could occur.

Special services

To help make investing with the Fund as easy as possible, and to help you manage your investments, the following special services are available. You can get further information about these programs by calling Shareholder Services at 800-243-2729.

- Valu-Matic[®] allows you to make regular monthly investments of \$25 or more automatically from your checking account.
- Through the Systematic Cash Withdrawal Plan you can arrange a regular monthly or quarterly payment from your account payable to you or someone you designate. If your account is \$5,000 or more, you can have monthly or quarterly withdrawals of \$25 or more. Such withdrawals will each constitute a redemption of a portion of your Fund shares which may result in income, gain or loss to you, for federal income tax purposes.

- You may buy shares in the Fund for your individual or group retirement plan, including your Regular or Roth IRA. You may establish your IRA account even if you already are a member of an employer-sponsored retirement plan. Not all contributions to an IRA account are tax deductible; consult your tax advisor about the tax consequences of your contribution.

Dividends, distributions and taxes

The Fund earns interest daily on its investments and distributes the income daily. Any capital gains that it has realized are distributed annually. All dividends and any capital gains are automatically reinvested, unless you indicate otherwise in your application to purchase shares.

You will generally be taxed on dividends and distributions you receive, regardless of whether you reinvest them or receive them in cash. For federal income tax purposes, distributions paid by the Fund from short-term capital gains and dividends paid by the Fund from net investment income are generally taxable as ordinary income. Since the Fund's income is derived from sources that do not pay "qualified dividend income," dividends from the Fund will not qualify for taxation at the maximum 15% U.S. federal income tax rate available to individuals on qualified dividend income. Because the Fund is not expected to have long term capital gains, the Fund does not expect any of its distributions to be taxable as long-term capital gains. You may be subject to state and local taxes on dividends and distributions.

The Fund will send you a statement by January 31 each year detailing the amount and nature of all dividends and capital gains, if any, that you were paid during the prior year.

You generally will have a capital gain or loss if you dispose of your Fund shares by redemption, exchange or sale in an amount equal to the difference (if any) between the net amount of the redemption or sale proceeds (or in the case of an exchange, the fair market value of the shares) that you receive and your tax basis for the shares you redeem, sell or exchange. Redemptions, exchanges or sales of shares generally will not result in taxable gain or loss if the Fund successfully maintains a constant net asset value per share.

As with all mutual funds, the Fund may be required to withhold a 28% backup withholding tax on all taxable distributions payable to you if you fail to provide the Fund with your correct social security number or other

taxpayer identification number or to make required certifications, or if you have been notified by the IRS that you are subject to backup withholding. Backup withholding is not an additional tax; rather, it is a way in which the IRS ensures it will collect taxes otherwise due. Any amounts withheld may be credited against your U.S. federal income tax liability.

The above discussion is meant only as a summary; more information is available in the Statement of Additional Information. You should consult your tax adviser about your particular tax situation including federal, state, local and foreign tax considerations and possible additional withholding taxes for non-U.S. shareholders.

The financial highlights table is intended to help you understand the Fund's financial performance for the past five years. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned or lost on an investment in the Fund assuming reinvestment of all dividends and distributions. This information has been derived from the Fund's financial statements which were audited by PricewaterhouseCoopers LLP, whose report, along with the Fund's financial statements, is included in the Fund's annual report, which is available upon request by calling 800-243-2729.

Financial Highlights

Selected data for a share of capital stock outstanding throughout each year:

	Years Ended December 31,				
	2008	2007	2006	2005	2004
Net asset value, beginning of year	\$1.000	\$1.000	\$1.000	\$1.000	\$1.000
Income from investment operations:					
Net investment income	0.017	0.044	0.043	0.023	0.005
Dividends from net investment income	(0.017)	(0.044)	(0.043)	(0.023)	(0.005)
Change in net asset value	—	—	—	—	—
Net asset value, end of year	\$1.000	\$1.000	\$1.000	\$1.000	\$1.000
Total return	1.69%	4.45%	4.37%	2.28%	0.47%
Ratios/Supplemental Data:					
Net assets, end of year (in thousands)	\$174,686	\$166,907	\$196,261	\$153,923	\$175,139
Ratio of expenses to average net assets ⁽¹⁾	0.85%	0.83%	0.86% ⁽²⁾	0.91% ⁽²⁾	0.88%
Ratio of expenses to average net assets ⁽²⁾	0.60%	0.58%	0.61%	0.90%	0.88%
Ratio of net investment income to average net assets	1.62%	4.37%	4.30%	2.22%	0.43%

(1) Ratio reflects expenses grossed up for custody credit arrangement and grossed up for the waiver of service and distribution plan fees by the Distributor. The ratio of expenses to average net assets net of custody credits, but exclusive of the waiver of the service and distribution plan fees by the Distributor, would have been unchanged for the years shown.

(2) Ratio reflects expenses net of the custody credit arrangement and net of the waiver of the service and distribution plan fees by the Distributor.

For more information

Additional information about the Fund's investments is available in the Fund's annual and semi-annual reports to shareholders. You can find more detailed information about the Fund in the current Statement of Additional Information dated May 1, 2009, which has been filed electronically with the SEC and which is legally a part of this prospectus. If you want a free copy of the Statement of Additional Information, the annual or semi-annual report, or if you have any questions about investing in this Fund, you can write to the Fund at 220 East 42nd Street, New York, NY 10017-5891 or call toll-free 800-243-2729. You may also obtain the prospectus, statement of additional information and annual and semi-annual reports at no cost from the Fund's Internet site at <http://www.vlfunds.com>.

Reports and other information about the Fund are available on the Edgar Database on the SEC Internet site (<http://www.sec.gov>), or you can get copies of this information, after payment of a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov, or by writing to the Public Reference Section of the SEC, Washington, D.C. 20549-0102. Information about the Fund, including its Statement of Additional Information, can be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. You can get information on operation of the public reference room by calling the SEC at 1-202-551-8090.
